

**VISUAL BUILDERS**  
PTY LTD

July 25th, 2007

To whom it may concern,

**RE: Company Reference**

Visual Builders takes great pleasure in providing a reference for Kane & Co., a company that are extremely professional and competent in their field of expertise.

I personally have worked with Kane & Co. for many years both in my role as Director for Visual Builders and as a Project Manager for other building firms. During this time I have found that the standard of approach, assistance and skill level within the company is excellent.

Chris Fenwick needs to be congratulated on what he has created, a solid electrical company that can be relied on at all times to price the work competitively, give additional assistance during tendering, provide excellent service and complete projects on time with little or no complication.

At the end of a project the results speak for themselves. For Kane & Co no problem is too big or too small to overcome. I highly recommend them to any client or other building company as 100% reliable sub contractor.

Regards,

Tony Lewis  
Director
