To whom it may concern

**PROJECT REFERENCE FOR KANE & CO ELECTRICAL CONTRACTORS PTY LTD
TRIVETT CLASSIC GARAGE EUREKA TOWER – ASTON MARTIN ROLLS ROYCE**

We invited Kane & Co Electrical Contractors, to tender this project in September 2007 during the head contract negotiation period.

During this period we found Kane & Co particularly proactive in providing crucial costing information, reviewing alternatives and assisting us with our formulation of a delivery strategy for this complex fitout project.

Kane & Co won the subcontract tender on a competitive basis and as the project moved into the construction stage immediately demonstrated its professionalism and high level of organisation and administration.

The project presented a number of challenges all of which were overcome by Kane & Co in a methodical manner.

At final inspection the project engineer noted the attention to detail given to the electrical work which resulted in virtually nil defects.

The result speaks for itself, a spectacular fitout, our client occupied on time and has traded very well in its first two months.

I have no hesitation in providing this reference for Kane & Co, in particular Mr Chris Fenwick and Mr Andrew McLean who were responsible for the project, and I would gladly expand upon this if required.

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Jonathan Noble', with a small dot at the end.
